Company Overview

A 100% UAE-owned enterprise connecting global manufacturers to the heart of the Middle East energy market — a single, reliable partner for the region's most demanding operators.

◆ Legal Name	I CODE FOR ELECTRICAL AND MECHANICAL EQUIPMENT — L.L.C — O.P.C
◆ Brand	iCode
◆ Headquarters	Mussafah Industrial Area M2, Abu Dhabi, UAE
◆ Established	30 September 2020
◆ License No.	CN-3768889 — Abu Dhabi DED
◆ Legal Form	Limited Liability Company — Sole Proprietorship
◆ Ownership	100% UAE National Owned

"A strategic value-chain link between world-class international suppliers and the Middle East's most demanding energy operators."

ICV

Mission

To be the strategic value-chain link between world-class international suppliers and the Middle East's most demanding energy operators — delivering quality, reliability, and speed to market.

Vision

To become the most trusted energy supply agency in the UAE and GCC — empowering international manufacturers to enter and grow in the Middle East through a single, reliable partner.

Values

- **Quality** — ISO-certified standards in every engagement
- **Integrity** — transparent, conflict-free representation
- **Reliability** — consistent delivery to ADNOC & EPC contractors
- **Partnership** — long-term relationships, mutual success

Sectors & Capabilities

Serving the UAE's most demanding energy operators — onshore and offshore — across 13 business activities licensed by the Abu Dhabi Department of Economic Development.

Oil & Gas

Full-lifecycle support across the hydrocarbon value chain.

Upstream

Midstream

Downstream

Power Generation

Equipment & services for the region's energy backbone.

Utilities

Infrastructure

Water Treatment

Supply & treatment for critical water systems.

Desalination

Water Injection

Industrial & Petrochemical

Trusted supply for refineries & process plants.

What We Deliver

Engineered products and specialist services trusted across the UAE energy value chain — from corrosion protection to downhole operations.

SECTION 01 · CORROSION & OXIDATION

Corrosion & Oxidation Resistant Services

As an authorized distribution partner of ZERUST® Integrity Solutions (an NTIC brand), iCode delivers full-lifecycle asset protection — prevention, monitoring and treatment — for ADNOC, EGA and GCC industrial facilities.

- VCI & SCI technology — advanced chemical corrosion barriers
- Coating & lining for pipelines, tanks, vessels & structural steel
- Cathodic protection & data-driven corrosion monitoring
- Tailored chemical treatment & inspection programs

iCode x ZERUST®

Authorized Distribution Partner — VCI & SCI asset preservation

SECTION 02 · PRODUCT PORTFOLIO

Reinforced Thermoplastic Pipes (RTP)

A modern, high-performance pipeline solution engineered for demanding oil & gas environments — without the weight or corrosion risk of steel.

- Corrosion-free — no internal or external corrosion, zero coating
- Up to 80% lighter than steel; spoolable, weldless installation
- No hot-work permits — faster, safer deployment; 25+ yr service life

Power Plants

Services Portfolio

Field-proven engineering and supply services delivered to ADNOC, EPC contractors and oilfield operators across the UAE and GCC.

Valves, Pumps & Mechanical

API-certified industrial supply for oil, gas, water & power.

- Ball, gate, globe, check & DBB valves
- Centrifugal, submersible & Ex-rated pumps
- Vessels, separators & skid packages

Oil Well & Production Chemicals

Specialty chemicals to protect assets & maximize recovery.

- Corrosion & scale inhibitors, demulsifiers
- Pour-point depressants, wax inhibitors
- Anti-scalants for injection & desalination

Pipeline Testing & Treatment

Integrity, compliance & operational safety.

- Hydrostatic testing to API, ASME & client specs
- Chemical cleaning, flushing & passivation
- Pigging, leak detection & repair

Industrial Inspection Engineering

Asset integrity — weld inspection to risk-based programs.

- NDT: UT, RT, MT, PT & ET
- FFS (API 579), tank/vessel/piping (653/510/570)
- Risk-based inspection & corrosion mapping

Wireline Logging & Perforating

Downhole services to ADNOC well-engineering specs.

- Formation evaluation & production logging
- Casing inspection & perforating (TCP / wireline)
- Mechanical services & log interpretation

Facilities & Market Consultancy

Strategic entry, technical advisory & procurement.

- ADNOC vendor registration & bid management
- Exclusive supplier representation & feasibility
- HSE consulting & UAE logistics strategy

Qualified. Certified. Recognized.

All three ISO certifications are mandatory for ADNOC supplier qualification and major UAE energy-sector tenders.

ISO 9001

Quality Management

Consistent quality across all services, supply-chain operations and project delivery.

QUALITY CERTIFIED

ISO 14001

Environmental Management

Commitment to environmental responsibility and sustainable industrial practice.

ENVIRONMENTAL CERTIFIED

ISO 45001

Health & Safety

The highest international standard for worker health & safety across field operations.

SAFETY CERTIFIED

ICV > 50%

In-Country Value — critical for ADNOC tendering & qualification

SME Champion

Abu Dhabi SME Champions Programme · SAQ Score 83.33 (DED)

ADNOC Vendor

Registered & active in the ADNOC supplier system

Khalifa Fund

UAE government-backed enterprise (Law No. 14 of 2005)

The iCode Advantage

ADNOC System Access

Already registered — direct entry into ADNOC's supply chain with full tender & bid support.

ISO-Certified Quality

ISO 9001, 14001 & 45001 — the mandatory UAE energy-sector standards, met in full.

End-to-End Logistics

Import, customs, warehousing & last-mile delivery to ADNOC & industrial sites.

Exclusive Representation

Sole UAE agency agreements — conflict-free commercial focus for manufacturers.

Multi-Activity Portfolio

13 licensed activities across chemicals, equipment, pipes & consultancy.

100% UAE Owned

A fully Emirati enterprise aligned with ADNOC's In-Country Value strategy.

Trusted Across the Energy Value Chain

Serving national oil companies, EPC contractors and oilfield service providers across the UAE and GCC region.
